

Reporting 3.0 Beta Testing Program
Phase 2 European Meeting
1 February 2018
Dutch Federation of Accountants (NBA) Amsterdam

We look forward to the Phase 2 European Reporting 3.0 Beta Testing Program Working Group Meeting, where we will be reviewing first results from pilot projects and diving deeper into the Recommendations of the *Data Blueprint*.

3:15-4:00	Synthesis & Next Steps	Bill Baue & Ralph Thurm
4:00	Adjourn	

Goals and Expected Outcomes

The primary goal of the Beta Testing Program is to pilot the Recommendations from Reporting 3.0 Blueprints (and complementary ideas) in order to create implementable practices and “off-the-shelf” tools that can scale the necessary transformation to a regenerative and distributive economy. Accordingly, this Meeting has two main goals:

- **Joint Learning**
 - The Beta Testing Program Working Group is structured as a hybrid community-of-inquiry and community-of-practice, with a focus on leveraging network effects.
- **New Pilot Opportunity Identification**
 - We expect this meeting to identify opportunities to advance new projects piloting the Reporting 3.0 Blueprint Recommendations.

Attendees (^Virtual)
